

How to use Bunk1 email service

What is Bunk1?

- Bunk1 is a communication tool to send your child emails and pictures during their session.
- We receive parent emails, print them for campers and hand them out daily. You can also receive handwritten replies from your children if you “attach a reply form” when sending a message.

How does Bunk1 work?

- Create an account with Bunk1 in the Wilvaken community. Invitation codes will be sent out to registered families.
- Every day at 10, we receive messages from the last 24 hours, print and hand them out at lunch time.
- To receive a response, you must include a reply form in your message.
- Ensure your camper has a blue or black pen to write home.
- We scan and send reply forms every day. Letters must be placed in our Wilvaken outgoing mailbox in the Lodge.

Camper replies

- Camper receives a reply form (or you print them out before camp)
- Camper writes in blue or black pen
- Camper places the reply form in the Lodge mailbox
- Reply forms are scanned and sent every day from Wilvaken
- Bunk1 notifies you of your reply
- *Please note: Campers may not write back to you on the same day they received your letter.*
